

Aceso Global is a nonprofit organization that catalyzes global healthcare performance and innovation. We provide strategic healthcare advisory services to design and deliver highly customized, evidence-based solutions that address the complex nature of healthcare systems.

Why Aceso Global?

- Over 30 years of experience in 100 emerging markets
- Skilled in diagnosing and addressing health system challenges
- Ability to adapt and translate OECD experiences and global best-practices to diverse settings
- Capacity building through training, research and advice
- Proven track record of delivering quality products

Project Highlights

- Analyzing hospital management arrangements and Public-Private Partnership options for a new public hospital in Saint Lucia
- Redesigning the public healthcare system in Brazil through a Network Model to shift towards value-based care
- Leading a Joint Learning Network initiative with five countries focused on integrating healthcare and introducing a population health management approach to efficiently meet patient needs
- Designing an innovative quality improvement and management competency training program aimed at healthcare managers and front-line workers in Central America
- Determining the cost of NCDs in Jamaica and the potential economic benefits of introducing national health insurance
- Developing policy recommendations for the Indian Government to transform the healthcare system through new organizational and delivery models

Our Leadership and Team

Aceso Global was founded by global health experts Dr. Maureen Lewis and Dr. Gerard La Forgia. With more than 30 years of experience each, they have strong track records of innovation and performance at the World Bank, the Inter-American Development Bank and The Urban Institute.

Aceso Global's core staff includes senior consultants, skilled project managers and a team of analysts with experience across high, middle and low income countries. The team also leverages a global network of expert specialists to address the unique needs of each client.

Maureen Lewis, PhD, Co-Founder & CEO

Respected thought leader in global health and health economics with significant experience managing teams worldwide. Former World Bank Chief Economist for Human Development.

Gerard La Forgia, ScD, Co-Founder & CTO

Global expert in integrated service delivery, hospital performance, quality and payment systems. Former resident World Bank Lead Health Specialist in Brazil, India and China.
